It is the apparently the same address and probably the same company but the name is not the same. That was an ER probably to the CES Environmental Services Site but why she called it Houston Methanol Explosion is beyond me. I think we need a new SSID for this one.

Thanks

Mr. Moore,

Look at the address for site A6R7. Is this the same site?????

just need a Yes or No

The screenshot shows the IBM Lotus Notes application window titled "Superfund Site Spills - IBM Lotus Notes". The interface includes a menu bar (File, Edit, View, Create, Actions, Section, Tools, Help) and a toolbar with various icons. Below the menu bar is a status bar with "Edit Document" and "Exit & No Save" options. The main content area is divided into sections. The "Document Status" section is expanded, showing a blue header with the text "Superfund Site Spill Identifiers" and "Updated by: Robert Contreras on 07/22/2009". Below this is the "Site Spill Data" section, which contains the following information: SS ID: A6R7, Cerclis #: TXN000607026, Name: Houston Methanol Explosion, Address: 4904 Gnggs, City: Houston, State: Texas, Zip Code: 77021-3208, County: Harris, Related Sites: None, Requested By: Jones, Nancy L, Mail Code: 6SF-PE, Telephone No: 214.665.8041, and Received Date: 07/22/2009. The bottom of the window shows a Windows taskbar with various icons and a system clock indicating 2:10 PM on 4/16/2014.

Subject: Request for SSID - CES Houston

Hello:

Please make this request. You may have to talk with Bob Werner for the Enforcement Codes but if the normal ones are included I am sure that will be fine.

Bob:

It is still up in the air if we are going to take action or not so we need to limit the charges to the accounts for this site.

Thanks
